5. Insured salary	4
6. Contributions to the Swissport Pension Fund	4
7. Retirement savings	5
8. Vested benefits	6
9. Retirement benefits	6
10. Disability benefits	7
11. Death benefits	8
12. Individual purchase of pension benefits	9
13. Financing of benefit reductions as a result of early retirement	9
Purchase table	10

1. REFERENCE TO THE PENSION SCHEME REGULATIONS

This pension plan is part of the Swissport Pension Fund. The pension scheme regulations and further information can be found www.pv-swissport.ch.

The pension plan regulates the financing as well as the amount of insured benefits for the affiliated employers and their employees in the Swissport Pension Fund.

The pension scheme regulations of the Swissport Pension Fund contain the basics, as well as the general provisions. Adjustments to the pension scheme regulations will also take effect for the pension plan on the date of their entry into force; in the event of inconsistencies, the pension scheme regulations will take precedence.

In order to see your individual pension situation, we refer to your personal insurance certification.

2. GROUP OF PERSONS

The present pension plan governs the additional insurance of the affiliated employers' employees on monthly salaries whose decisive salary exceeds 375% of the maximum AHV pension and who are insured in the monthly salary basic plan. For part-time employees, this amount is reduced in proportion to the percentage of full-time hours worked.

3. DECISIVE SALARY

The decisive salary defines which salary components from the employment relationship with the employer are included in Swissport Pension Fund. You can find your personal salary on your insurance certificate.

Regulations in the Swissport Pension Fund

The following salary components are part of the decisive salary:

- Monthly salary, experience component, individual adjustments, position compensation, ownership and age step.

Examples

The following examples of financing and insured benefits refer to a decisive annual salary of CHF 130,000 (full-time employee) and a decisive annual salary of CHF 104,000 (part-time employee). You can find your personal decisive salary on your insurance certificate.

4. ADMISSION TO THE ADDITIONAL PLAN

You will be admitted to the additional plan provided that you are a member of the defined group of persons and your decisive salary is higher than 375% of the maximum AHV pension. For part-time employees, this amount is reduced in proportion to the percentage of full-time hours worked.

5. INSURED SALARY

Regulations in the Swissport Pension Fund

- Insured salary = your decisive salary minus the coordination amount
- Coordination amount: 375% of the maximum AHV retirement pension. For part-time employees, this amount is reduced in proportion to the percentage of full-time hours worked.

The insured salary is the basis for the assessment of the contributions as well as the following benefits from the Swissport Pension Fund. You can find your insured salary on your insurance certificate.

Examples

	Full-time employee	Part-time employee degree of employment 80%
Decisive salary in CHF	130'000	104'000
Coordination amount in CHF	107'550	86'040
Insured salary in CHF	22'450	17'960

6. CONTRIBUTIONS TO THE SWISSPORT PENSION FUND

The employer and the employees make contributions to the Swissport Pension Fund. A distinction is made between savings contributions and risk and cost contributions.

Savings contributions: The savings contributions flow into the individual retirement account and, together with the interest, result in the regulatory retirement savings. You can find your individual retirement savings on your insurance certificate.

The savings process begins on 1 January after reaching the age of 19 and ends at the reference age. If you continue to work beyond the reference age, you can choose whether you want to continue paying savings contributions or be insured on a non-contributory basis. You can terminate the savings process at the end of any month and continue the insurance without paying contributions for as long as you are employed, up to a maximum of 70 years of age.

Risk and cost contributions: The risk and cost contributions are used to finance disability and death benefits before retirement and to cover the costs of the Swissport Pension Fund.

Regulations in the Swissport Pension Fund

- The savings contributions are a percentage of the insured salary.
- There are two savings plans to choose from: “Standard” and “Standard Plus”. Effective as of 1 January of each year, insured persons can choose which savings plan they would like to make savings contributions to in the following year. If no decision is taken, the “Standard” savings plan is applied. Once taken, a decision will be valid until revoked; this is possible until 31 December of any given year.
- The risk and cost contributions are a percentage of the insured salary.
- The applicable percentages can be found in the following table:

Age	Savings contributions - Standard			Risk and cost contributions		
	Employee	Employer	Total	Employee	Employer	Total
<20	0.00%	0.00%	0.00%	1.25%	1.25%	2.50%
20 - Reference age	6.00%	15.00%	21.00%	1.25%	1.25%	2.50%
Reference age-70*	21.00%	0.00%	21.00%	0.00%	0.00%	0.00%

Age	Savings contributions - Standard Plus			Risk and cost contributions		
	Employee	Employer	Total	Employee	Employer	Total
<20	0.00%	0.00%	0.00%	1.25%	1.25%	2.50%
20 - Reference age	9.00%	15.00%	24.00%	1.25%	1.25%	2.50%
Reference age-70*	24.00%	0.00%	24.00%	0.00%	0.00%	0.00%

* if the savings process is continued.

Examples (employee contributions – Standard)

Age 46	Full-time employee	Part-time employee
Insured salary in CHF	22'450	17'960
Old-age savings contributions in %	6.00%	6.00%
Old-age savings contributions in CHF	1'347	1'078
Risk and cost contributions in %	1.25%	1.25%
Risk and cost contributions in CHF	281	225

These contributions are calculated to the month and deducted from your salary on a monthly basis.

7. RETIREMENT SAVINGS

The savings contributions made by the employee and employer are credited to your individual retirement savings as retirement credits. You can find further regulations on retirement savings in the pension scheme regulations. You can find your individual retirement savings and your retirement credits from the previous year on your insurance certificate.

Regulations in the Swissport Pension Fund

- The retirement credits are a percentage of the insured salary.
- Employees and employers share the contributions to the retirement credits.
- The applicable total percentages can be found in the following table:

Age	Old-age savings	Old-age savings
	contributions - Standard	contributions - Standard
<20	0.00%	0.00%
20 - Reference age	21.00%	24.00%
Reference age-70*	21.00%	24.00%

* Retirement credits are only credited if the insured person continues the insurance with the savings process.

Examples (total savings contributions by employees and employers – Standard)

Age 46	Full-time employee	Part-time employee
Insured salary in CHF	22'450	17'960
Retirement credits in %	21%	21%
Retirement credits in CHF	4'715	3'772

8. VESTED BENEFITS

If you change employer, your retirement savings will be added to the new employer's pension scheme. You can find your individual retirement savings on your insurance certificate.

Regulations in the Swissport Pension Fund

- When you join, you are required to bring the vested benefits from any previous pension plan into the foundation.
- If you leave before retirement, you are entitled to have your vested benefits transferred to a new pension provider. Please refer to the pension regulations for further details.

9. RETIREMENT BENEFITS

The retirement pension is calculated by multiplying the individual retirement savings at the time of retirement by the conversion rate. The retirement pension calculated in this way is paid out until death. If there are children who are entitled to a pension at the time of retirement, a pensioner's child's pension will also be paid.

If a spouse or partner is registered at the time of death after retirement, they will receive a pension until their death. This benefit is known as the reversionary survivor's pension. Life partners only receive a survivor's benefit if the life partnership was known at the time of retirement and the conversion rate with entitlement to a spouse's or life partner's pension was used to calculate the retirement pension.

You can withdraw all or part of your regulatory retirement savings in the form of a lump sum at the time of retirement.

Regulations in the Swissport Pension Fund

- The regulatory reference age corresponds to the provisions of the AHV. Retirement is possible from the age of 58 and up to the age of 70.
- At the time of retirement, the Swissport Pension Fund determines whether there is a spouse or partner who is entitled to a pension. This determination is decisive in the selection of the conversion rate to be used.
- The level of the corresponding conversion rates (a conversion rate with entitlement to a spouse's or partner's pension; a conversion rate without entitlement to a spouse's or partner's pension) can be found in the annex to the pension regulations.
- The reversionary survivors' pension for insureds who had a spouse or partner at the time of retirement is 70% of the individual retirement pension. The relevant eligibility condition can be found in the pension scheme regulations.
- The amount of the retired child's pension is 20% of the individual retirement pension. The relevant eligibility condition can be found in the pension scheme regulations.

Examples

You can find your expected retirement benefit on your insurance certificate.

	With entitlement to spouse's or life partner's benefits	Without entitlement to spouse's or life partner's benefits
Old age savings, supplementary plan, age 65, in CHF	270'000	216'000
Conversion rate	4.96%	5.54%
Retirement pension in CHF	13'392	11'966
Future survivor's pension in %	70%	0%
Future survivor's pension in CHF	9'374	-
Pensioner's child pension in CHF	2'678	2'393

10. DISABILITY BENEFITS

In the event of disability, you will receive a disability pension. The degree of disability is fundamentally based on the degree of disability determined by the federal disability insurance scheme. The disabled person's retirement savings will continue to be managed and augmented by the savings contributions. The contributions no longer have to be paid by the person concerned (exemption from contributions). The disability pension runs until the reference age is reached and is then replaced by the statutory retirement pension. In the event of disability after the reference age, retirement benefits are due.

If there are children who are entitled to a pension, a disability child's pension will also be paid. The relevant eligibility condition can be found in the pension scheme regulations.

You can find your individual disability pension on your insurance certificate. Further regulations can be found in the pension scheme regulations.

Regulations in the Swissport Pension Fund

- The full insured disability pension corresponds to the anticipated retirement pension, but is at least 40% of the insured salary.
- The full insured disabled child's pension is 10% of the insured salary.

Examples

	Full-time employee	Part-time employee
Insured salary in CHF	22'450	17'960
Disability pension in %	40%	40%
Disability pension in CHF	8'980	7'184
Disabled person's child pension in %	10%	10%
Disabled person's child pension in CHF	2'245	1'796

11. DEATH BENEFITS

In the event of death before you receive a retirement pension, your entitled survivors will receive a pension. Your spouse, life partner and orphans are considered eligible survivors. In the event of death after receiving a retirement pension, the death benefits of a retirement pensioner are due in accordance with Art. 9 of this pension plan. You can find your individual benefits in the event of death before retirement on your insurance certificate.

In the event of partial retirement, the survivor's benefit is calculated in accordance with both this article and Art. 9 of the pension plan, provided the reference age has not yet been exceeded.

If the savings process is continued after the reference age, the retirement pension to which the insured person would have been entitled at the time of death is calculated on the basis of the conversion rate with entitlement to a spouse's or partner's pension. The spouse's or partner's pension amounts to 70% of this retirement pension.

If there are no pension beneficiaries, a lump-sum death benefit is paid out.

Regulations in the Swissport Pension Fund:

- The amount of the pension for the spouse or partner is 70% of the insured disability pension.
- The eligibility requirements are set out in the pension scheme regulations.
- The notification/proof of a life partnership is mandatory.
- The orphan's pension is 10% of the insured salary.
- The lump-sum death benefit corresponds to a maximum of the individual retirement assets plus voluntary purchases to the foundation without interest. Further details on the amount of the lump-sum death benefit and on the beneficiaries are set out in the pension scheme regulations.

Examples

	Full-time employee	Part-time employee
Disability pension in CHF	8'980	7'184
Future survivor's pension in %	70%	70%
Future survivor's pension in CHF	6'286	5'029

12. INDIVIDUAL PURCHASE OF PENSION BENEFITS

In addition to the regular contributions, you can make purchases into the foundation on a voluntary basis. These purchases can be deducted from your income in your tax return. You can find your indicative maximum individual purchase amount on your insurance certificate. In the case of a planned purchase, the foundation will be happy to inform you of the maximum amount on request.

13. FINANCING OF BENEFIT REDUCTIONS AS A RESULT OF EARLY RETIREMENT

You can pre-finance pension reductions as a result of early retirement on a voluntary basis. You can, therefore, retire early with the full statutory benefits for your normal reference age. These purchases can be deducted from your income in your tax return. In the case of a planned purchase, the foundation will be happy to inform you of the maximum amount on request.

This pension plan comes into force on 1 January 2024.

Zurich, 10 November 2023

Swissport Pension Fund

14. PURCHASE TABLE

The purchase table is used to calculate the maximum possible purchase amount in accordance with Art. 12 of the Pension Scheme Regulations. The maximum purchase amount depends on the age of the insured person and the insured salary. The individual retirement savings available at the time of purchase are deducted when determining the maximum individual purchase amount.

Age	Maximum purchase amount in % insured salary		Age	Maximum purchase amount in % insured salary	
	Standard	Standard - Plus		Standard	Standard - Plus
20	21.0%	24.0%	43	638.9%	730.1%
21	42.4%	48.5%	44	672.6%	768.7%
22	64.3%	73.4%	45	707.1%	808.1%
23	86.6%	98.9%	46	742.2%	848.3%
24	109.3%	124.9%	47	778.1%	889.2%
25	132.5%	151.4%	48	814.6%	931.0%
26	156.1%	178.4%	49	851.9%	973.6%
27	180.2%	206.0%	50	890.0%	1017.1%
28	204.8%	234.1%	51	928.8%	1061.4%
29	229.9%	262.8%	52	968.3%	1106.7%
30	255.5%	292.0%	53	1008.7%	1152.8%
